Growing up in Burlington and having played both hockey and rugby at multiple levels he understands the joy of being part of a team and the importance of making connections both on and off the ice and encourages his players to have as much fun as they can together to create lifelong bonds while developing key team skills for later in life.

On the ice Jamey's coaching philosophy focuses on ensuring a strong base of fundamental skills through progressive skill development and introducing a team play structure while ensuring a supportive atmosphere where players can learn from mistakes as much as they do from their successes. After taking a brief break from coaching girl's hockey for the 2022/23 season Jamey is very excited to be returning to the bench and being a part of the Burlington Barracuda's organization.

U15 TEAM 4 JEFF WILSON

Jeff returns to the BGHC program for his 6th year as a coach and his first foray into coaching girls at the rep level. Since his days in high school and university Jeff has coached or assisted in multiple sports with a focus on hockey. Growing up between Oakville and London (ON), Jeff played AAA hockey his entire life before playing Jr B for 4 years (including one as an under-ager), was drafted to the OHL, participated in final camps for Canada's under 17 program until he landed playing NCAA division 1 hockey for Union College in the ECAC. He even got to dip his toe in at the professional level after his university hockey ended.

Jeff's coaching philosophies are clear; develop a culture of inclusiveness and fun, while instilling an on and off-ice work-ethic that creates better players and people. To do this Jeff creates an environment of open communication and individual and team goals. Jeff's long-term aspiration is to develop hockey fans for life whether that be as players, coaches, or casual observers. Jeff can be reached at coachjefful5b@gmail.com
